

# SENDERRA

Specialty Pharmacy

## WHY SENDERRA?

We understand that as a Prescriber, your job is increasingly driven by administration. We're here to help change that, so that you can focus on what matters – Patient care.

- ✓ We do the heavy lifting
- ✓ Positive patient outcomes
- ✓ Patient support programs
- ✓ Senderra patients stay on their medications longer
- ✓ Dependable account managers
- ✓ Patients & offices love us

## WHAT CAN SENDERRA DO FOR ME?

### Nurse-Driven Model

We coordinate with you to best fit the model of how your practice administers and handles specialty medication prescription fulfillment.

### Meet Your Demands

Our Prescriber partners rely on us to lighten the burden of administration, while using CarePath, which enables us to meet your demands and the needs of your Patients.

### Be Caregivers

Once we prove ourselves, Prescribers often find that they are again free to focus on who matters most—their Patients.

### Big Enough, Yet Nimble

Since 2010 we have experienced tremendous growth as a direct result of the effectiveness of our people, technology, and processes.

# PRESCRIBER SUPPORT FOR G.I.

## Prescriber Portal

Senderra's unique prescriber portal gives real time access to all patient data. Pharmacy requests, patient statuses, new prescriptions, and pharmacy messaging are all easily accessible in the portal.

## Portal Features

- Prescribe through the portal
- Live messaging with our pharmacy
- Issue patient refills
- Track shipments
- Visible real time working to-do list
- View and return the appeal checklist
- Upload docs & check insurance
- View all patient documents
- Expedited prescription process due to our efficient process that doesn't require the use of fax machines
- Go paperless
