WHAT CAN SENDERRA DO FOR ME?

Prescriber And Patient-Driven Model

We coordinate with you to best fit the model of how your practice administers and handles specialty medication prescription fulfillment.

Meeting Your Demands

Our Prescriber partners rely on us to lighten the burden of administration, while using CarePath, our proprietary patient management system. We date and time stamp all patient Rx interactions and keep the HCP office and patient informed, which enables us to meet your demands and the needs of your Patients.

Compassionate Caregivers

By working together with Senderra, Prescribers find that they are again free to focus on who matters most—their Patients and leave the administrative tasks to us!

Independent And Nimble

Established in 2010, we have grown to be the largest, independent Specialty pharmacy in the nation! This growth is attributed to our relationships with our Prescribers and the patients we help care for, and a testament to our people and innovative business processes.

PRESCRIBER SUPPORT FOR G.I.

Prescriber Portal

Senderra's unique prescriber portal gives real time access to all patient data. Pharmacy requests, patient statuses, new prescriptions, and pharmacy messaging are all easily accessible in the portal. Provider offices are able to reach us via the portal, fax or our Provider SWAT dedicated phone line.

Portal Features

- Prescribe through the portal
- Live messaging with our pharmacy
- Issue patient refills
- Track shipments
- Visible real-time working to-do list
- View and return the appeal checklist
- Upload docs and check insurance
- View all patient documents
- Expedited prescription process due to our efficient process that doesn't require the use of fax machines
- Go paperless
